Spiritual Violence and Discrimination In Our Colleges

MISSION:

To affirm, support and empower the Gay, Lesbian, Bisexual, Transgender and Alliance (GLBTA) community. To bring forth God's love, justice and compassion to a world in which hate, discrimination, self-certainty and fear too often keep us from trusting and hearing one another.

Soulforce 2007 Equality Riders
Katie Higgins & Jarrett Lucas
as they share their stories of living their truth.

The Soulforce Equality Ride was inspired by the Freedom Rides of the civil rights era. During a two month journey by bus, participants initiated discussion about faith and sexuality in communities where it is most controversial, in Christian colleges and universities. In many schools, just identifying as or affirming a lesbian, gay, bisexual, or transgender person is a violation of policy. Participants in the Equality Ride shared a message of hope and healing with students suffering under such doctrinal prejudice. Riders hoped that genuine understanding would result from an honest exchange with students and faculty.
